White Filling Insurance Payments

Dr. Locker does not use silver amalgam fillings anymore because they: 1) are ugly; 2) leak; and 3) crack teeth due to their physical properties.

However, many insurance companies only pay for the cheaper silver fillings in back teeth. I understand that my insurance plan and what they pay is entirely my responsibility and many times Gentle Family Dentistry can only roughly estimate what my portion may be at the time of treatment.

I therefore accept and bear full responsibility for paying Gentle Family Dentistry the balance of any charges for treatment rendered to me that my dental insurance company refuses to pay. I also agree to pay said balance immediately upon becoming aware that I owe the balance.
